

WARNING NOTICE

Excessive noise generated from motor vehicles is a frequent source of complaints to police. Amplified music and other noise can be disruptive to our neighborhoods. This is a concern at all hours of the day, but particularly at night, and when in proximity to sleeping facilities.

This notice is being provided to advise you of the problems associated with excessive noise, and that enforcement action can be taken for subsequent violations. Persons creating unreasonable noise can be arrested for disorderly conduct (Section 240.20, New York State Penal Law).

We ask for your cooperation in maintaining peace and order in our community.
